CLIMATECARE PROJECTS

Our Climate+Care approach means that our projects are designed to protect the environment and improve lives, and each delivers against multiple sustainable development goals. Here are some examples of the type of project that your money will support through ClimateCare:

LifeStraw Carbon For Water, Kenya

This project relies on finance from your offsetting to deliver safe water to 4 million people in Kenya. An award winning project, it was the first to link water provision with carbon credits at scale and has been recognised by the UN.

Gyapa Stoves, Ghana

This project supports local entrepreneurs to manufacture and distribute safe, efficient cookstoves to households in Ghana. Run on the ground by our partners Relief International, the Gyapa stove cuts charcoal use by up to 50%, saving families money and reducing harmful smoke emissions.
